

A PDF is created with:

```
Pdf pdf = new Pdf();
```

A PDF is written with:

```
pdf.write(out);
```

A page is created with:

Page page1 = pdf.createPage(595, 842);

A text with font times-roman is added with:

```
page1.addText(20, 700, 12, "The text to display");
```

A text with another font is added with:

```
page1.addText(20, 700, 12, Font.COURIER.getVariant(FontStyle.BOLD), "The text to display");
```

Below are texts with different fonts, colors and sizes:
Times-Roman

Times-Roman Bold

Times-Roman Italic

Times-Roman Bold Italic

Courier

Courier Bold

Courier Italic

Courier Bold Italic

Helvetica

Helvetica Bold

Helvetica Italic

Helvetica Bold Italic

Συμβολ

An image is created with:

```
Image image = pdf.createImage(this.getClass().getResourceAsStream("/test.png"));
```

An image is sized and positioned with:

```
image.setX(20);
```

```
image.setY(70);
```

```
image.setWidth(60);
```

```
image.setHeight(30);
```

An image is added with:

```
page1.addImage(image);
```

This is an image

When an image is used multiple times, no need to re-create its data.

Just save space in PDF by cloning it's references using:

```
Image image2 = image.cloneReference();
```

Change its size, position, etc and draw it again.

A straight line can be added with:

```
page2.addPath(new StraightPath(new Point(20, 640), new Point(150, 650)));
```

A line can be added with more points using:

```
StraightPath straightPath = new StraightPath(new Point(20, 510), new Point(20, 500), new Point(150, 500));
```

```
straightPath.close();
```

```
page2.addPath(straightPath);
```

A Bezier line can be added with:

```
page2.addPath(new BezierPath(new Point(20, 440), new BezierPoint(70, 440, 60, 400, 80, 470), new BezierPoint(140, 440))
```

Straight and Bezier lines can be filled and/or stroked with:

```
BezierPath bezierPath2 = new BezierPath(new Point(20, 400), new BezierPoint(70, 400, 60, 360, 80, 430), new BezierPoint(140, 400));
```

```
bezierPath2.setFill_color(new Color(80, 128, 128));
```

```
bezierPath2.fill();
```

```
bezierPath2.setStrokeColor(new Color(128, 80, 128));
```

```
bezierPath2.setLineWidth(4.0f);
```

```
page2.addPath(bezierPath2);
```
